Garrett McLaughlin

Software Engineer

37 Clara Howard Way North Easton, MA 02356
508.930.1905
gjmclaughlin19@gwmail.gwu.edu

Looking to use the skills I have learned across my degree and summer internships in a full time position. Strong verbal, listening, and writing skills. Comfortable working in a team environment at all levels of a corporation. Personal and classroom projects available at github.com/MrGarrett45.

Skills

Python, Angular, Javascript, C/C++, ASP.NET, Java, Swift/iOS programming, working with Arduino/Raspberry Pi, SQL, IT services, computer repair, comfortable in linux environments, comfortable with debugging programs such as GDB/Valgrind.

Experience

Fidelity Investments / Software Engineering Intern
MAY 2018 - AUGUST 2018. Smithfield, RI

Worked in an agile based software development team focused on cybersecurity, particularly maintaining access standards across the company. Learned skills in middle tier and front end development using ASP.NET and Angular.

J. Derenzo / IT Assistant
MAY 2016 - AUGUST 2016, MAY 2017 - AUGUST 2017. Brockton, MA

Worked in an IT team managing a network for 1000+ users. Used my skills in Python to improve automation company wide. Also learned skills in systems administration and network install.

Education

The George Washington University / Computer Science, B.S.
SEPTEMBER 2015 - MAY 2019. Washington D.C.

Courses Taken: Operating Systems (C), Systems Programming (C/Arduino), Algorithms (Python), Data Structures (Java), Calculus 1/2, Discrete Math 1/2, Computer Architecture (C/Assembly), Cryptography.

Boston College High School
SEPTEMBER 2011 - MAY 2015. Boston, MA
